

EDUCATION

PhD in Computer Science

Massachusetts Institute of Technology

Advisor: [Mitchell Gordon](#), CSAIL

2025 **MEng in Computer Science**

Massachusetts Institute of Technology

Advisor: [Arvind Satyanarayan](#), Visualization Group, CSAIL

Concentration: Artificial Intelligence

GPA: 4.8 / 5

2019 **SB in Computer Science**

Massachusetts Institute of Technology

GPA: 4.4 / 5

ACADEMIC RESEARCH

2025-Present **MIT CSAIL**

Mentor: [Mitchell Gordon](#)

Developing frameworks to evaluate and enhance human-AI interactions.

2022-Present **Visualization Group, MIT CSAIL**

Mentor: [Arvind Satyanarayan](#)

Researching methods to interpret and align model learning behavior with human reasoning.

PUBLICATION

2025 **Abstraction Alignment: Comparing Model-Learned and Human-Encoded Conceptual Relationships**

[Angie Boggust](#) ■ [Hyemin Bang](#) ■ [Hendrik Strobelt](#) ■ [Arvind Satyanarayan](#)

ACM Human Factors in Computing Systems (CHI) 2025

[Project](#) [Paper](#) [Code](#)

WORKSHOP

- 2024 **Explanation Alignment: Quantifying the Correctness of Model Reasoning at Scale**
Hyemin Bang  [Angie Boggust](#)  [Arvind Satyanarayan](#)
European Conference on Computer Vision (ECCV) Explainable Computer Vision Workshop 2024
[Project](#) [Paper](#) [Code](#)

TEACHING

- Spring 2025 **6.8510 [6.871]: Intelligent Multimodal User Interfaces**
Graduate Teaching Assistant, Massachusetts Institute of Technology
Professor: [Randall Davis](#)
- Summer - Fall 2024 **Break Through Tech AI**
Graduate Teaching Assistant, Massachusetts Institute of Technology
- Mentoring undergraduate women, non-binary, and underrepresented students in data science, machine learning, and AI.
- Spring 2024 **6.7930 [6.871] / HST.956: Machine Learning for Healthcare**
Graduate Teaching Assistant, Massachusetts Institute of Technology
Professor: [Peter Szolovits](#)
- Delivered a lecture on explainability and interpretability in healthcare ML to 100 students.
- Fall 2022 **6.4100 [6.034]: Artificial Intelligence**
Graduate Teaching Assistant, Massachusetts Institute of Technology
Principal Lecturer: [Kimberle Koile](#)
- Fall 2017 **Refugee Learning Accelerator**
Undergraduate Researcher, MIT Media Lab
- Mentored Middle Eastern computer scientists and engineers in developing technologies for refugee education.

PROFESSIONAL EXPERIENCE

- 2019 - 2021 **InterSystems**
Systems Developer
- Integrated H2O and DataRobot, third-party machine learning platforms, into InterSystems IRIS, the company's high-performance database platform, simplifying and streamlining the development and deployment of machine learning models.
- Designed and implemented Kafka and AmazonSQS connectors for InterSystems IRIS, enabling seamless data integration between systems.
